**SiOO:X**  
WOOD PROTECTION

# SiOO:X PreWash

Wood cleaning before SiOO:X-treatment

Cleaning of treated surfaces  
with heavy dirt and algae growth

1 LITRE CONCENTRATE – ENOUGH FOR 20–50 M<sup>2</sup>.

UK

# SiOO:X PreWash

1 LITRE

## APPLICATIONS:

- Wood cleaning for treatment with SiOO:X Wood Protection.
- Cleaning of extra particularly exposed and damaged SiOO:x-treated surfaces with algae growth and heavy dirt.
- Also dissolves and removes SiOO:x Surface Protection. Important to reapply SiOO:x Surface Protection to complete the SiOO:x treatment.
- Opens greasy, hard or planed surfaces, which promotes penetration of SiOO:x Wood Protection.

**PREPARATIONS:** Carefully clean the deck with SiOO:x Prewash to remove oil, paint, grease and dirt. Remove any remaining oil and paint by washing or sanding. A rotating brush attached to a high-pressure washer can be helpful. Rinse with water and allow the wood to dry thoroughly. Cover furniture and objects made of glass or aluminum – the products are alkaline and can leave stains. Use protective gloves. Planed surfaces must be sanded with 80 grit paper prior to treatment.

**REMEMBER:** Lowest temperature for use: 0°C. Wipe away spills immediately with a wet rag. SiOO:x Prewash is not intended to remove stubborn oil and paint.

**INSTRUCTIONS:** Use a **1:4 dilution for normal cleaning, for easier cleaning 1:8**. Rinse the surface with water, apply the pre-wash with a paintbrush, brush or sponge and leave it on for about 10 minutes. Scrub with brush, rinse with water. When cleaning surfaces treated with SiOO:x using SiOO:x Prewash, some of the SiOO:x Surface Protection is dissolved. Finish off with a coat of SiOO:x Surface Protection when the surface has dried.

**AMOUNT REQUIRED:** One litre of diluted liquid is enough for about 4-5 square metres, depending on the degree of dirt and dilution. **CONTENTS:** Potassium silicate and surfactants.

**WHAT DO I DO IF I HAVE QUESTIONS?** Read more at [sioo.com.se](http://sioo.com.se) or contact your dealer. Store frost-free. Sort rinsed packaging as hard plastic.

*It is not possible for Sioo to warn the consumer about every possible danger related to use of the product Sioo retains the right to update the material as it deems appropriate and the user is charged with the knowledge of the information contained in any such updates.
